#### EAT (Encounter of art and technology) Nomade Label DAO

[REPORT] **EAT (Encounter of art and technology) Nomade Label DAO** Project Status: Ongoing (planning next editions) Project Accounting: the objective was to celebrate the creation of [#nomadelabel-dao](#) with a physical event with as many nomades as possible, so we could share experiences and make new plans to realize collaborations that already happened organically. Some of the performances and telematics had to be adapted and replaced due to the lack of time to create an event as big as it was. th...

### [REPORT] MARCH - Montly Report @Blabla.lab on NomadeLabel - DAO

Hello NEARverse 🙌 Glad to report for the event we had so much fun, beautiful and inspiring, to meet, talk, organizing and broadcasting to all talks and processes, so here goes the report: Aim We wanted to present new works and ideas frm these artists to the community and help them get started with their ambitious, extraordinary, crazy, and beautiful ideas #What we did: this month we invited the two artists and produce contents for two livestreaming on instagram as we propose, with: ...

4 - Council work.

Each of our council members received the amount of 100 DAI making a total of 600 USD.

### Financial Situations

We choose to convert NEAR to DAI instantly before send to nomadelabel-dao-sputinik, to prevent currency osculation, just gabrielfelipejacomel did submit before we all learn about this process. The unfortunately fact is that Luciana Loveletter had 400 DAI + 2,5 NEAR stolen from her account. Something that makes it dificult to track was that DAI didn't shows in a clear visualization on wallet.near history transactions.

She took responsibility on the matter and pay they invited artist from her pocket.

Other huddaet issue was that pinkalskyy got more expenses to realize EAT event, and he [Skip to main content](#) de dept,.

## EAT (Encounter of art and technology) Nomade Label DAO

there was also an extra expense of about 100USD (500Brl) for the Estudio Lamina Rental, that I covered with my council payment.

### Highlights:

EAT present 18 artist related to nomadelabel Store, and around 70 humans went to the event. This modality of Physical Art Events NEAR related is one of our great statements as a group, cause the lack of engagement of Sao Paulo Art scene demands the presencial contact, and now pandemics its over in Brazil, those rituals became a possible outcome for our work as community members.

### Learnings:

We got our first founding request of our DAO planned on 2000 USD in N, and probably we work more than what we earn. As a founder of nomadelabel, my goal is to bring sustainability to our "artistic working class", that we can growl to accomplish more social projects, a vision that we all share in the DAO of considering Art as important part for tranformation, learning and joy

### Next Steps:

Keeping founding Physical Events at Sao Paulo city; promote artists and exchanges inside ecosystem; investing in artistic production as a path to make NEAR ecosystem an interesting place to be, as Cereja Azul said in a comment:

## [APPROVED] Projeto Quintas Paralelas Surreal Podcast Fevereiro 2022

Although this PROPOSAL is not about onboarding, since @blusw is an artist with almost 20 years of activities his projects will value any plataform he's in. I agree with all the fellows who talk about the importance of bringing new minters, but it will only work out fine if all kinds of people, not just sellers but also buyers, feel like it's a real community, with real artiststs that cares about Art, its history and implications. Blu's projects can grant that a store like Gambiarra it's a real...

But still, one of our goals is also to make onboarding, as we are doing at this time:

Soon we will post the request for April Foundings to creatives

All the best
