This is my first post in this platform, and i will use it as a work-in-progress.

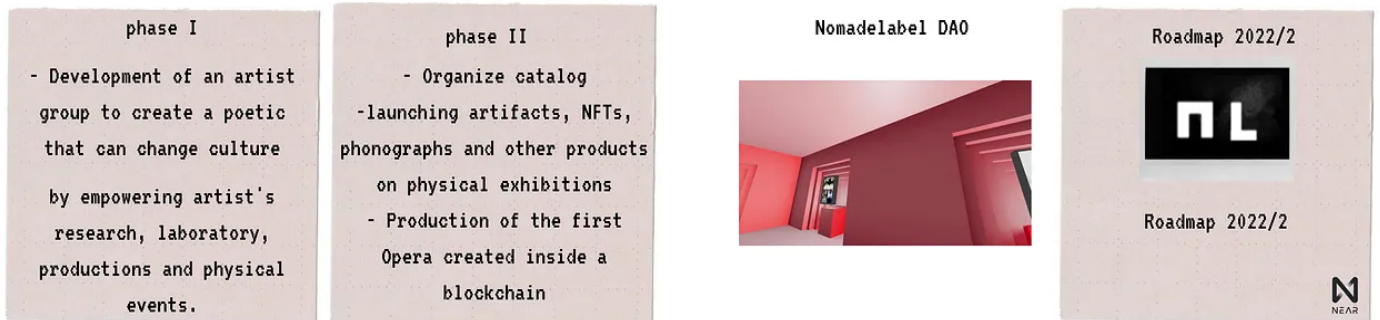

Mama Blua Discórdia at [LAJE-SP](#) (saopaulo Brasil), on [Eat + Chá com Bolo II](#), a [nomadelabel DAO](#) physical event. Photo by [@lldazo](#).

At first i would like to set the parameters of my journey of brainstorming here:

- searching ways of long-term deal on our nomadic artistic production;

- sick for integration between Near and São Paulo Transdisciplinary art scene;
- track the paths of development of our team/family;
- design the role of collaborators and execute projects with less afford;
- designing the selling machine;

To integrate past and future, i must list first all our members, and each proposals they already complete they mission.
